

Unitask Software Now Available for Private Label Offerings

Branded Solutions for Partners & Managed Service Providers

Bloomfield Hills, MI (April 1, 2015) - As a leading provider of Oracle E-Business Suite solutions, Unitask Software today announced the continued expansion of the Unitask OEM Division. Designed to provide private branded solutions for Partners, the Unitask OEM Division will be expanded with new offerings for products, as well as packaged solutions for Managed Service Providers.

Founded with the mandate to provide core Unitask Software automated solutions for the Partner community, the Unitask OEM Group can privately brand the Company's software solutions with the Partners nameplate and desired functionality. The program will now be expanded to include:

- Output Director & all associated modules including Command Center
- Migration Director & all associated modules inclusive of Control Center
- Unitask Transition for the movement of critical infrastructure
- All Service Practices and Training Materials will further be available for adaptation.

“Our success in Partnering has centered on the ability to react quickly and provide solutions which relieve the pressure on People, Projects and Performance for our Partners and Customers. The success of this Partnering is now leading us to further assist as clients and customers struggle with configuring and publishing Oracle EBS information, as well as modernizing the Migration process within Oracle EBS,” said Dale D. Royal, Chairman & CEO of Unitask. “Eliminating the mundane chores allows all of us to focus on much more critical path items.”

For Managed Service Providers as well as Services companies with existing Oracle EBS customer bases, Unitask products can provide best-of-breed solutions for automating Output Management and Change Management in Oracle EBS. In the past, many System Integrators and Services Companies have partnered with Unitask Software to meet a specific customer demand or to provide a more robust solution for a customer project. Private labeled versions will allow these types of companies to build their existing solutions as well as new offerings around Unitask Software with a seamless integration

and single point of sale. For more specific information, please visit <http://www.unitask.com/partners>.

About Unitask Software

Unitask Software develops and deploys solutions that accelerate the realized value of Oracle E-Business Suite Implementations. Based upon over a decade of experience in the Oracle E-Business Suite enterprise, Unitask products eliminate implementation and operational risk of the installation, while improving the application quality and usability.
