

Unitask Software Introduces “One Campus” Education License Program

New Educational Licensing Delivers Operational Efficiency & Fiscal Responsibility

Bloomfield Hills, Michigan. As a leading provider of Oracle E-Business Suite solutions, Unitask Software today announced the immediate availability of the “One Campus” Educational License Program.

“The need for highly educated and well trained individuals has never been greater throughout all of American Industry than it is today. Yet educational institutions across the US are under tremendously distracting pressures for reforms today, both financially and operationally,” stated Dale D. Royal, Chairman & CEO of Unitask Software. “In designing the “One Campus” Program, we focus on the ability for Colleges, University’s and Centers for Higher Education everywhere to remain focused, efficient and operationally sound while fiscally conservative.”

The Unitask One Campus Program allows for a simple and efficient single licensing distribution model of Unitask Software solutions across the Educational Institution. Delivered in single license form, Institutions will be enabled for Unlimited User, Unlimited Device program access for those Educational Institutions that implement the Oracle EBusiness Suite, either in RR11.5 or R12 releases. The program provides solutions for the streamlining of operations and staffing requirements that include:

- ***Migration Director*** - A fully automated software solution that provides Build, Promote & Deploy capability for required changes in Oracle EBusiness Suite.
- ***Output Director*** – An enterprise class software solution that provides Print, Fax, Email & Storage repository integration of devices for the Oracle EBusiness Suite.
- ***Command Center*** – The single interface control system for Harvesting, Unified Administration & Management of required devices throughout the campus wide environment for Oracle EBS.

“We need to take every step possible to reinvest in our educational institutions. One Campus allows us to do so by offering solutions at dramatic reductions in price that bring immediate efficiencies operationally and financially, allowing schools to focus on education, not on operations. It only makes sense to focus on those things that facilitate the mandate of the School, educating and training and delivering world class students.”

About Unitask Software

Unitask Software develops and deploys solutions that accelerate the realized value of Oracle E-Business Suite Implementations. Based upon over a decade of experience in the Oracle E-Business Suite enterprise, Unitask products eliminate implementation and operational risk of the installation, while improving the application quality and usability.
