### About Unitask

Unitask is committed to helping organizations implement, manage and run their Oracle E-Business Suite. Unitask creates, sells and supports software products based on experience gained from over a decade of Oracle E-Business Suite implementation projects. Customers of the Oracle E-Business Suite around the world rely on Unitask products to eliminate implementation and operational risk, improve the quality of the application and accelerate time-to-value. For more information, please visit [www.unitask.com](http://www.unitask.com).

About OVOAUG: Financial, accounting, manufacturing, and information systems professionals dedicated to increasing the knowledge and understanding of the Oracle Applications.

The OVOAUG will address topics relevant to the installation, implementation, configuration, support, and future direction of Oracle Applications and supporting products. This user's group will work to improve processes, documentation, software, and other items related to these topics through active participation in the Oracle enhancement process, development of materials and programs, the exchange of information, and other activities. The OVOAUG will cover a territory for the Southern half of Ohio (Columbus and South) and all of Kentucky. For more information, please visit <http://ohio.oaug.org>.
