

Unitask Software Chooses Experienced Professional to Market Expansion

Brad Ferguson to Direct Strategies for Partner Development

Columbus, OH, September 17, 2008 — Expanding the ranks of its leadership team, Unitask Software today announced the appointment of Brad Ferguson as Director of Business Development with emphasis for the Channel partner Development marketplace effective immediately.

Ferguson will be responsible for creating the business development sales and service model offerings within the Company's Channel Partner marketplace. As a seasoned professional, Brad brings 20+ years of experience in software application development and management. Prior to joining Unitask, Brad served as Director of Business Development for Continuent Software; a company dedicated to clustering and availability solutions in the database marketplace. Ferguson also enjoyed leadership success at Sistina (a Red Hat company) and Oracle Corporation.

"With a track record of success, Ferguson will provide the leadership vision and strategy for the building of strong solution sets specifically targeted to the needs of the Partner Community. Having the ability to attract individuals such as Brad, truly signifies a validation of our vision and strategy," said Dale D. Royal, Unitask CEO. "We are very fortunate to be able have Brad take a leadership role in the formation of our Go-To-Market efforts in this very important business sector."

"Unitask is enjoying great success with its two main products, Print Director and Object Migration Manager and has a solid customer and channel partner base in the Oracle E-Business Suite market," said Ferguson. "To have the opportunity to enter the company at this stage and provide further direction for these incredible products is not only creatively exciting, but energizing as well."

About Unitask Software

Unitask Software develops and deploys solutions that accelerate the realized value of Oracle E-Business Suite Implementations. Based upon over a decade of experience in the Oracle E-Business Suite enterprise, Unitask products eliminate implementation and operational risk of the installation, while improving the application quality and usability.
